

Legal Marriage Requirements by Destination

Making your marriage legal, especially in international countries such as Mexico or the Caribbean can require some additional steps before you can say “I Do.” Check below for marriage requirements by destination to ensure that your marriage will be recognized back home after you return.

General Tips and FAQ's

Here are some general questions to make sure you answer while planning your destination wedding.

What's the waiting period and/or requirements for residency?

Most countries require a short waiting period typically of 2-5 business days to ensure all your legal documents can be properly processed prior to getting married. Based on the required waiting period or residency requirements, you'll have to adjust your actual wedding date to make sure you have fulfilled the requirements prior to getting married.

However, some countries may have longer waiting periods up to one month before you can legally apply for a marriage license, so make sure to check what your country's residency requirements and waiting periods are so you can plan accordingly when making you and your guests' travel plans.

What documents do we need to bring along?

Check your individual destination for what required documents you have to bring and whether they will need to be translated or notarized before you arrive. Make sure you bring original, official documents such as birth certificates, divorce decrees or death certificates along with a few copies of each of the official documents.

If you have been married before, you'll need to provide proof that you are no longer married in the form of a divorce decree, death certificate or other official documentation that proves your single status.

You and all of your guests will also need to have a valid, non-expired Passport for entry into any international destination. If you do not have a Passport, allow up to six weeks for your Passport to arrive, otherwise, you can pay an additional fee to have your Passport expedited.

Make sure to also put any documents in your carry-on luggage instead of your checked baggage.

Is there an additional cost for getting married abroad?

Some destinations have additional legal and/or required fees that are separate from your hotel wedding fees, which vary by destination. Check with your individual destination to get an idea of the fees that may be required in addition to the form of payment necessary, especially if you need to pay in cash in the local currency.

Do we need witnesses?

Witnesses most likely will be required to make your marriage legal abroad. Check with your individual destination to see if witnesses are required at the ceremony and/or the time you are applying for the marriage license within your destination.

Do we need a blood test or physical?

Many times, your destination will not require this, but some may require you to perform a blood test or physical within the destination either at a clinic or your resort. Check with your destination to see what is required.

Are there any religion requirements?

If you want to get married under a certain religious denomination or wish to have a secular ceremony, you can generally find out what your options are from the local officiant or your hotel's wedding coordinator. If you wish to do

a religious/civil ceremony, check to see what additional documents you may need from your church such as a baptism record, notice of active status within your church or certification of marital counseling.

If you want to bring your own officiant to perform the ceremony, make sure they check with the destination's requirements to ensure that they can legally perform your wedding according to local laws.
